OUR FOUNDATION

Who we are

Tito Tech is a full-service oriented solution provider through Web Development and ICT Services

We place our focus on assisting our clients to establish their own footprint in the rapidly changing technological era with emerging technologies designed to elevate how they operate, engage customers, market their businesses and services in an efficient, ethical and sustainable manner.

Our People

Tito Tech has business partnerships and staff that have upto 10 years experience within the ICT industry and is slowly evolving into an advanced solutions provider. Our focus is on servicing customers. With valuable service and long term relationship building we aim to be part of an industry that is relevant to solving today's problems and in moving Botswana further towards the Fourth Industrial Revolution.

OUR VISION

***TO BE
BOTSWANA'S LEADING
LOCALLY DEVELOPED
BUSINESS APPLICATIONS PROVIDER***

For our country to transition into the Fourth Industrial Revolution and to take part in the global market, the efficiency of our systems needs to radically develop to match world standards in service delivery.

We have the passion for it and the zeal to solve our industry problems and enable companies to tap into the potential of the global market.

OUR MISSION

Our mandate as a company is to harness from the already existing skilled workforce of software engineer graduates in Botswana and put it to work in producing and developing innovative, digitally driven and affordable business applications and solutions across all aspects of the economy.
